

Nothing in this policy shall prohibit the collection of audio voice recordings, facial expression information, and student handwriting for:

- provision of counseling or psychological services,
- conducting student threat assessments,
- completing student disciplinary investigations or hearings, or
- conducting child abuse investigations.

Select Student Surveys

No nonacademic test, questionnaire, survey, or examination containing any questions about the personal and private attitudes, values, beliefs, or practices of the student or the student's parents, guardians, family members, associates, friends, or peers that is administered during the school day shall be administered to any kindergarten through 12th grade student unless:

- the parent or guardian is notified in writing not more than four months in advance of the administration of such test, questionnaire, survey, or examination that such is to be administered; and
- the parent or guardian of the student gives consent through a written or electronic signature or, in the event of an immediate need, gives verbal consent for the student to participate.

Advance notification to a parent or guardian must include:

- A copy of the test, questionnaire, survey, or examination that is to be administered;
- Information on how the parent or guardian may provide written consent to authorize the student to take such test, questionnaire, survey, or examination;
- The name of the company or entity that produces or provides the test, questionnaire, survey, or examination to the school; and
- Whether the school will receive or maintain the resulting data and an explanation of how the school intends to use and maintain such data.

For written consent to be accepted, timely notice in compliance with the requirements of this policy must be provided, and the parent or guardian must have had an opportunity to review the information contained in the notice. Written consent must be provided separately for each individual test, questionnaire, survey, or examination that is to be administered. Prior to administering any such test, questionnaire, survey, or examination, a copy of it must be posted and maintained on the district's website.

A student has the right to refuse to take any test, questionnaire, survey, or examination as described herein at any time, regardless of receipt of parent or guardian consent to participate. Prior to administering any such test, questionnaire, survey, or examination, each student shall be informed that such student has the right to refuse to take it and that the student will not suffer any adverse consequences based on refusal to participate.

No personally identifiable student data shall be collected through any such test, questionnaire, survey, or examination.

Except as otherwise provided in this policy, the provisions of this subsection shall apply to any test, questionnaire, survey, or examination as described herein that is administered or proposed to be administered to any student by any employee of a school district, including, but not limited to, any administrator, teacher, counselor, social worker, psychologist, or nurse.

If, however, any district employee becomes aware that a student may be at risk of suicide by a credible report from the student, the student's peers, or another school district employee, the school personnel who are designated to administer a suicide risk assessment or screening tool may administer such risk assessment or screening tool in accordance with the provisions of this subsection to determine whether the student could be at risk for suicide. Such designated school personnel may include, but is not limited to, any administrator, teacher, counselor, social worker, psychologist, or nurse. Prior to the administration of any such risk assessment or screening tool, the designated staff member shall verbally notify the parent or guardian before the administration of such risk assessment or screening tool and obtain the consent of the parent or guardian.

If the designated staff member is unable to verbally notify the parent or guardian of the student and obtain consent after reasonable attempts to do so, the designated staff member may administer the risk assessment or screening tool without such consent. If a risk assessment or screening tool is administered without the parent or guardian's consent, as soon as contact with the parent or guardian is made, the designated staff member shall notify the parent or guardian of the administration of such assessment or screening tool and provide to the parent or guardian all information obtained from the risk assessment or screening tool administered to the student.

Approved: June 13, 2022
