

September 13, 2021

USD 467 - Wichita County - COVID Plan

- 1) Publish a list of symptoms. If someone is exhibiting two or more symptoms, the person should stay home.

Fever > 100.4	Chills	Shakes-Shivers
Muscle Pain	Fatigue	Headache
Congestion-Runny Nose	Cough	Sore Throat
Shortness of Breath or Difficulty Breathing	Diarrhea	
NEW smell or taste disorders		

- 2) Offer voluntary free COVID-19 testing at school by obtaining funding through KDHE.
- 3) If a household family member tests positive, resulting in student quarantine, the parent may consider voluntary, ongoing testing for the student for the duration of the quarantine. As long as the test is negative, and the student is asymptomatic, the student may come to school.
- 4) Quarantines are not required for asymptomatic people who have been vaccinated.
- 5) Inform community of availability of fully FDA approved vaccines for ages 12 and up.
